HISTORY

General

The Company was incorporated in the state of Missouri on June 2, 1983, and commenced business on January 1, 1989, as a stock property and casualty insurance company under Chapter 379 RSMo (Insurance Other Than Life).

The Company was a wholly owned subsidiary of National General Insurance Company, which was a wholly owned subsidiary of NAVCO Corp., a Missouri insurance holding company. On January 4, 1984, NAVCO Corp. and its subsidiaries, which included the Company, were purchased by Crum & Forster, Inc., a New Jersey insurance holding company, which was ultimately owned by Xerox Corporation.

On March 24, 1984, Crum & Forster, Inc. transferred its ownership equally between two of its subsidiary companies, United States Fire Insurance Company and International Insurance Company.

On December 20, 1990, Motors Insurance Corporation acquired 100% of the stock of NAVCO Corp. On June 1, 1999, National General Insurance Company transferred ownership of National General Assurance Company to NAVCO Corp. On May 22, 2002, the board of directors approved the following transactions necessary for reorganization. First, transfer of the capital stock of GMAC Insurance Marketing to Motors Insurance Corporation as of May 31, 2002. Dividends

On April 25, 2000, the Company paid a stockholder dividend consisting of 5,000 shares of the Company's common capital stock, which resulted in the transfer of \$500,000 from unassigned surplus to common capital stock. This has been the only dividend ever paid by the Company.

INSURANCE PRODUCTS AND RELATED PRACTICES

Territory and Plan of Operations

The Company is licensed in Missouri under Chapter 379 RSMo, (Insurance other than life) to write property, liability and miscellaneous insurance. The company is also licensed in all other states except Hawaii, Maine, Massachusetts, New Hampshire, New Jersey, and Vermont.

The majority of the Company's business is produced through direct response programs marketed to affinity groups and associations. The business is concentrated in the mature risk, recreational vehicle, multi-car segment of the market.

Promotional fees payable to affinity groups and associations under the marketing programs were \$1,623,815; \$3,488,246 and \$2,811,520 in 2001, 2002, and 2003, respectively.

Policy Forms & Underwriting; Advertising & Sales Materials and Treatment of Policyholders

The Missouri Department of Insurance has a Market Conduct staff that performs a review of these issues and generates a separate market conduct report. The most recent Missouri Market Conduct Examination was as of December 31, 2001.

The Company has a complaint system in place and appears to handle complaints in a timely manner.

REINSURANCE

The Company's premiums on a direct written and ceded basis for the current examination period were as follows:

	<u>2003</u>	<u>2002</u>	<u>2001</u>
Direct Business	\$120,468,622	\$76,853,149	\$52,492,738
Reinsurance Ceded	<u>(120,468,622)</u>	<u>(76,853,149)</u>	<u>(52,492,738)</u>
Net Premiums	<u>\$0</u>	<u>\$0</u>	<u>\$0</u>

Assumed

The Company assumes no reinsurance.

Ceded

The Company cedes 100% of its net retention to its parent company, Motors Insurance Corporation. This accounts for 99.92% of the Company's ceded premium. Along with the premium the Company cedes all liabilities. The Company's only balance sheet liability is Ceded Reinsurance Premiums Payable. The Company is party to various other reinsurance agreements, but very little business is ceded under those agreements.

We reviewed all of the Company's reinsurance agreements and they all appear to have the required clauses and safeguards.

ACCOUNTS AND RECORDS

The Company's financial statements are audited annually by Deloitte & Touche, LLP. We reviewed the 2003 Deloitte & Touche audit work papers and financial reports. These work papers and reports were used in the course of this examination as deemed appropriate.

The Information Systems Examination Specialist with the Missouri Department of Insurance completed an electronic data processing controls audits and concluded that systems controls appear reasonable.

Reserves and related actuarial items are reviewed and certified by Dan Pickens, FCAS, MAAA, Vice President of National General Assurance Company. Consulting actuary, Jon W. Michelson, FCAS, MAAA, of Expert Actuarial Services, LLC, was retained by the Missouri Department of Insurance to review the adequacy of losses and other related liabilities.

The Company is in violation of 20 CSR 200-4.010 (Books, Records, Accounts and Vouchers), both paragraph (3) "Location of Files," which states, "All financial books, records

and accounts necessary for the annual statement of a Missouri insurer must be kept in a central location” and paragraph (4) “Time Limits,” which states, “The insurer shall provide, within five (5) working days, any record requested by any duly appointed financial examiner . . .”

The General Motors holding company system is decentralized. Financial records are kept in various locations, and because of this it was difficult to obtain detailed documentation. Many requests took well over five working days. The examination-planning questionnaire, which was given to the Company in June 2004, was finally received on January 20, 2005, two week prior to our leaving the examination site.

FINANCIAL STATEMENTS

The following financial statements, with supporting exhibits, present the financial condition of the Company as of December 31, 2003, and the results of operations for the year then ended. Any examination adjustments to the amounts reported in the annual statement and/or comments regarding such are made in the “Notes to the Financial Statements” which follow the financial statements. (The failure of any column of numbers to add to its respective total is due to rounding or truncation.)

There may have been additional differences found in the course of this examination, which are not shown in the “Notes to the Financial Statements.” These differences were determined to be immaterial concerning their effect on the financial statements, and therefore were only noted in the work papers for each individual annual statement item.

SUBSEQUENT EVENTS

All intercompany balances were settled on January 13, 2004, and at that time the Company was no longer in violation of Section 379.082 3.(2)(k) as stated in Note 1 to the financial statements. In addition, we noted that the Company has consistently made quarterly settlements within 15 days after the close of the calendar quarter.

GENERAL COMMENTS AND/OR RECOMMENDATIONS

Accounts and Records

Page 15

The Company is in violation of 20 CSR 200-4.010 (Books, Records, Accounts and Vouchers), both paragraph (3) "Location of Files," which states, "All financial books, records and accounts necessary for the annual statement of a Missouri insurer must be kept in a central location" and paragraph (4) "Time Limits," which states, "The insurer shall provide, within five (5) working days, any record requested by any duly appointed financial examiner . . ."

The General Motors holding company system is decentralized. Financial records are kept in various locations, and because of this it was difficult to obtain detailed documentation. Many requests took well over five working days.

We direct the Company to centralize its financial records or maintain an adequate audit trail that would expedite the response to financial information requests. This could significantly reduce the costs of future financial examinations.
